Amendment: 001

1. NRAs are stated in terms of U.S. Currency and apply per 1 Cubic Meter (M) or 1,000 Kilos (W), as indicated, whichever basis yields the greater revenue, except as otherwise specified. Where the word Weight or the letter W appears next to an article or commodity, weight rates are applicable without regard to measurement. Where the word Measurement or the letter M appears next to an article or commodity, measurement rates are applicable without regard to weight.

All freight charges shall be based on the actual gross weight and/or overall measurement of each piece or package, except as otherwise provided.

NRAs indicated by W/M or WM are optional weight or measurement rates and the rate yielding the greater revenue will be charged.

2. Except as otherwise provided, all "Port" (i.e., Port-to-Port) NRAs apply from/to places where the common carrier originates or terminates its actual ocean carriage of cargo. Tolls, Wharfage, Cost of Landing, and all other expenses beyond the port terminal area are for account of Owner, Shipper or Consignee of the cargo and all such expenses levied in the first instance against the Carrier will be billed in an equal amount to the Owner, Shipper, or Consignee of the Cargo.

The "Point" NRAs named in this Tariff are applicable from Inland Points which lie beyond port terminal areas. Such NRAs will be shown as single-factor through NRAs. Such NRAs shall be inclusive of all charges pertinent to the transportation of cargo (including intermediate but not Origin or Destination Terminal Charges) but not including Customs clearance assessments or Forwarding Charges, except as provided.

Alternatively, at shipper's request, carrier will arrange for inland transportation as shipper's agent. All associated costs will be for the account of the cargo. Overland carriers will be utilized on an availability of service basis and not restricted to any preferred Carriers, except as Ocean Carrier deems necessary to guarantee safe and efficient movement of said cargo. (See item 16, re: Advanced Charges.)

Carrier shall not be obligated to transport the goods in any particular type of container or by any particular Vessel, Train, Motor, Barge or Air Carrier, or in time for any particular market or otherwise than with reasonable dispatch. Selection of Water Carriers, Railways, Motor, Barge or Air Carrier used for all or any portion of the transportation of the goods shall be within the sole discretion of the Ocean Carrier.

3. Packages containing articles of more than one description shall be rated on the basis of the rate provided for the highest rated articles contained therein.

4. NRAs do not include Marine Insurance or Consular fees.

5. Description of commodities shall be uniform on all copies of the Bill of Lading and MUST be in conformity with the validated United States Export Declaration covering the shipment. Carrier must verify the Bill of Lading description with the validated United States Export Declaration. Shipper amendments in the description of the goods will only be accepted if validated by United States Customs. Trade names are not acceptable commodity descriptions and shippers are required to declare their commodity by its generally accepted generic or common name.

6. Unless otherwise specified, when the NRAs are based on the value of the commodity, such commodity value will be the F.O.B. or F.A.S. value at the port of loading as indicated on the Commercial Invoice, the Custom Entry, the Import/Export Declaration or the Shipper's Certificate of Origin. The F.O.B. value and the F.A.S. value include all expenses up to delivery at the Loading Port.

7. The NRAs except where predicated on specifically lower values or on an ad valorem basis, are subject to Bill of Lading limit of value.

8. Except as otherwise provided, NRAs apply only to the specific commodity named and cannot be applied to analogous articles. Unless a commodity is specifically provided for the applicable Cargo, N.O.S. rate shall be applied.

9. Wherever NRAs are provided for articles named herein, the same NRA will also be applicable on parts of such articles where so described in the ocean bill of lading, except where specific NRAs are provided for such parts.

10. FORCE MAJEURE CLAUSE: "Without prejudice to any rights or privileges of the Carrier's under covering Bills of Lading, dock receipts, or booking contracts or under applicable provisions of law, in the event of war, hostilities, warlike operations, embargoes, blockades, port congestion, strikes or labor disturbances, regulations of any governmental authority pertaining thereto or any other official interferences with commercial intercourse arising from the above conditions and affecting the Carrier's operations, the Carrier reserves the right to cancel any outstanding booking or contract in conformity with Federal Maritime Commission Regulations."

11. When a commodity can properly be carried under more than one NRA, but which by its nature is clearly influenced by its end use, the freight shall be assessed based on the rate of the end use commodity, eg: Rubber Gloves, Cotton Gloves, etc. would all be rated under "Gloves, N.O.S." rather than Rubber Goods, Textiles, etc.

The above does not apply in cases where there is a specific NRA for the commodity in question, eg: If a NRA contains a rate for Rubber Gloves, then this rate will apply and NOT the Gloves, N.O.S. rate.

12. When two or more NRAs may be applicable to a given shipment and one NRA is more specific than the others, the most specific NRA shall apply. One NRA is more specific than another when it describes the commodity being shipped more explicitly, i.e.: Canned Pineapple is more specific than Canned Fruit or Canned Goods, N.O.S. A rate from/to a specific destination is more specific than a NRA to/from a geographic range or zone, (Examples): A NRA from New York, NY is more specific than a rate from Atlantic and Gulf Base Ports (AGBP). A NRA to Yokohama, Japan is more specific than a NRA to Japan Base Ports (JBP).

13. Any Tollage, Wharfage, Handling and/or other charges assessed against the cargo at Ports of Loading/Discharge will be for the account of the cargo. Any Tollage, Wharfage, Handling and/or Charges at Port of Loading in connection with storage, handling and receipt of cargo before loading on the vessel shall be for the account of the cargo. CLEAN TRUCKS FEE shall be imposed at \$35/20' and \$70/40' at carrier discretion when applicable and PIER PASS charges shall be imposed at \$50/20' and \$100/40' at carrier discretion when applicable. Any Additional Charges which may be imposed upon the cargo by Governmental Authorities will be for the account of the cargo.

Merchant acknowledges that for certain transport the underlying vessel will generally travel through certain waterways, including the Red Sea Region, the Panama Canal, and the Suez Canal, where the underlying ocean common carrier has deemed the most convenient route to the discharge port. Merchant acknowledges that there are current risks that any such Waterway may be blocked, closed, attacked by hostile forces or that the vessel may otherwise encounter significant delays and may opt to circumvent the Waterway. The underlying carrier may opt to exercise the following at its discretion: (1) the vessel may wait at the Waterway, and/or (2) may opt to pay additional fees in order to access the Waterway sooner; and/or (3) the vessel may sail such alternative route as the vessel operation common carrier deems suitable, including routes via the Cape of Good Hope at the southern tip of Africa vice traversing the Red Sea, and/or (3) the vessel operator may discharge the cargo at a close or convenient port with all of the Carrier's obligations under this contract being considered fulfilled. The Merchant shall be liable to pay the Carrier for the vessel operator's assessment of vessel detention at a daily detention rate on a pro rata basis with other cargo on the vessel for any time waiting exceeding certain specified time period and for the costs for consequent increase in time for sailing an alternative route plus any additional costs of all kinds, including, but not limited to bunkers resulting from such deviations and or alternate services, and to the consequences of force majeure which the underlying ocean common carrier may deem necessary to enforce as a result of the activities noted herein.

To the extent that any cargo is damaged pursuant to decisions taken or not taken by the underlying carrier which results in damages to the cargo from third party activities relevant to the waterway or other actions chosen by the underlying ocean carrier shall be allocated to the Merchant and/or cargo interest to the extent that such damage does not result directly from the gross negligence of Carrier.

Rule: MEASUREMENT AND WEIGHT

Rule #: 2-060

Filed on: 04/18/2011

Effective: 04/18/2011

Thru:

Expire:

Tariff reference to "W" and "M" signify 1,000 kilos and 1 cubic meter respectively. Whenever freight charges are assessed on a W/M weight or measurement basis or where NRAs are provided on both a W and M basis, the freight charges will be computed on the gross weight or the overall measurement of the pieces or packages, whichever computation produces the greater revenue to the Carrier.

1. All packages will be measured in CENTIMETRES and weight in KILOGRAMMES.

2. Rounding off- Dimensions

Where parts of centimeter occur in dimensions, such parts below 0.5 cm. are to be ignored, and those of 0.5 cm. And over are to be rounded off to the centimeter above.

3. Calculating Cubic Measurements

The three dimensions in centimeters (rounded off in accordance with (2)) are to be multiplied together to produce the cube of one package or piece in cubic meters to six decimals.

In case of a single package the decimals are to be rounded off at the second decimal, i.e., if the third decimal is below 5 the second decimal remains unaltered; if the third decimal is 5 or higher the second decimal is to be adjusted upwards.

In the case of multiple packages of like dimensions the cube on one package to six decimals is to be multiplied by the number of packages and the total cube is then to be rounded off to two decimals under the foregoing procedure.

4. OFFICIAL MEASURERS AND WEIGHERS

The straight loaded shipments of consolidator Cargo, stuffed at Carrier's nominated off dock CY locations, does not require measuring/weighing for purposes of confirming volume/weight of cargo. For such shipments, however, there must be a certificate from an officially appointed Sworn Measurer to confirm the exact location at which the shipment was stuffed into the container.

5. MISDESCRIPTION, UNDERWEIGHTS AND UNDERMEASUREMENT

A. The carrier at loading port will assess freight on the shipments on the basis of the gross weights and/or measurements declared or deemed to have been declared by Shippers. Such assessment is subject to the terms and conditions of the carrier's Bill of Lading. Notwithstanding the foregoing. Carrier may arrange at the port/point of destination for the verification of the description, measurement or weights of all such shipments as they, at their sole discretion, may decide and in all such cases the description, measurements or weights so obtained shall be used for determining the correct amount of freight which has to be paid and expense incurred should be for account of cargo.

B. If the gross weights and/or measurements declared by the Shippers are less than those ascertained and if the Shippers, by notification to the Carrier, within seven (7) days of the vessels sailing from port of loading or the consignees, by notification to the Carrier prior to the shipment leaving the custody of the Carrier, maintain that the gross weights and/or measurements stated by them are correct, freight shall be assessed provisionally on the controllers' figures and subsequently adjusted, if necessary, after an outturn reweighing and/or re-measuring. If such outturn re-weighting, re-measuring and/or resurveying shows that the gross weights, measurements and/or description were understated and/or misdeclared by the Shippers, re-measuring and/or resurveying shall be for the account of the cargo.

Amendment: 002

A. Overweight Containers

1. Shipper/Consignee for CY origin shipments shall be jointly severally and absolutely liable for any fine, penalty or other sanction imposed upon carrier, its agent motor/rail carrier by authority for exceeding lawful over-the-weight limitations in connection with any transportation services provided under this tariff and occasioned by any act of commission or omission of the shipper/consignee, its agent or contractors, and without regard to intent, negligence or any other factor. When carrier pays any such fine or penalty and assumes any other cost or burden, arising from such an event, it shall be on behalf of and for benefit of the cargo interest and carrier shall be entitled to full

reimbursement therefore upon presentation of an appropriate invoice. Nothing in this rule shall require carrier, its agents or motor/rail carrier to resist, dispute or otherwise oppose the levy of such a fine, penalty or other sanction and carrier shall not have any liability to the cargo interest should it not do so. Any charges incurred in re-handling cargo to comply with maximum weight restrictions will be for account of cargo.

2. The party responsible (i.e., the shipper or the consignee) for the shipment exceeding any lawful weight limitation shall indemnify and hold the ocean carrier transporting the shipment, its agents and the motor/rail carrier(s), harmless from any and all damages or liability from claims by whomever brought arising in whole or in part from the shipment exceeding any lawful weight limitation. Such indemnification shall include attorneys' fees and all costs incurred in the defense of such claim(s).

B. (SOLAS) Weight Verification Requirements

1. Upon tender of cargo to Carrier, Shipper shall provide to Carrier a Shipper Actual Gross Mass Weight Verification ("VGM") which meets the requirements of the International Maritime Organization (IMO) per its Guidelines relating to the Safety of Life at Sea Convention (SOLAS) for the export of containerized cargo. In the alternative in the event that the terminal to which Shipper's cargo is tendered is following the regulations per the U.S. Coast Guard's Marine Safety Information Bulletin (MSIB Number: 009/16), and corresponding OSHA regulations, providing an equivalency to Regulation VI/2 of SOLAS, pertaining to Verified Gross Mass (VGM), said VGM shall be provided by the terminal, and any additional port charges, if any, shall be allocated to the Shipper.
2. In the event that the terminal to which Shipper's cargo is being delivered follows the IMO SOLAS Guidelines, if a Shipper does not provide a satisfactory VGM to Carrier prior to tendering the cargo to Carrier, Carrier has the right to refuse to accept such cargo until one is provided to Carrier. If Carrier does accept container(s) from Shipper it may lawfully opt to not deliver the container(s) to the ocean terminals for loading on a vessel until it does receive a satisfactory VGM. Carrier shall rely on VGMs or other weight data provided by Shipper for purposes of Carrier tendering cargo and submitting VGM data to a terminal. Any expenses, charges, penalties or claims which may result from the untimely, inaccurate, or non-receipt of an acceptable VGM or relevant weight data is for the account of the Shipper.
3. At Carrier's sole option, Carrier can arrange to obtain a VGM on Shipper's behalf provided that Carrier agrees to do so in writing and by Shipper providing an executed written authorization for Carrier to do so in a format acceptable to Carrier whereby Carrier agrees to act as an agent on Shipper's behalf solely for that purpose. Accepting that function shall not otherwise alter Carrier's relationship as an independent contractor as Carrier. In the event that Carrier agrees to provide this service, Carrier shall pass on to Shipper all charges and trucking, and other expenses related to obtaining such VGM, plus a service fee of \$ 50.00 per container.
4. VGM's provided by the Shipper to Carrier pursuant to the IMO SOLAS Guidelines shall have been obtained from either Method 1 as described by SOLAS, which requires that the full container load was weighed after it was packed, and/or Method 2 which requires weighing all the cargo and contents of the container and adding the tare weight of the container as indicated on the door of the container.

5. Whether Method 1 or Method 2 is utilized by the Shipper, for the shipper's weight verification to be compliant with the IMO SOLAS Guidelines requirement, it must be "signed", meaning a specific person representing the shipper is named and identified as having verified the accuracy of the weight calculation on behalf of the shipper. Identification of the person signing requires that their full name, address, and phone number/e-mail address be provided. If shipper has obtained a weight verification from either Method 1 or Method 2, Shipper may utilize Carrier's e-Docs solution on line at www.grunners.com and provide an electronic signature as provided on subject web site. Carrier shall electronically transmit or otherwise deliver said VGM to the underlying ocean carrier or terminal.
6. If Shipper is utilizing the IMO SOLAS Guidelines, Carrier will not accept estimates of weight, and the weighing equipment used must meet national certification and calibration requirements. Further, the party packing the container cannot use the weight somebody else has provided, except that individual, original sealed packages that have the accurate mass of the packages and cargo items (including any other material such as packing material and refrigerants inside the packages) are clearly and permanently marked on their surfaces.
7. If containers are delivered to the piers/terminals by the Carrier without a satisfactory VGM and the loading port has appropriate weighing facilities, all charges, fees, and/ or penalties with respect to weighing subject container shall be for the account of the Shipper.
8. Carrier shall not be responsible for charges, fees, penalties or other claims for containers for which a verified weight was provided prior to loading in a preceding load port and which may be loaded in transshipment ports which may require another VGM whether or not the SOLAS Guidelines require such re-weighing.
9. Shippers who tender less-than-container load ("LCL"), whether beneficiary cargo owners, or non-vessel operating common carriers shall similarly provide VGMs for cargo tendered to Carrier loading facilities, and are subject to all weight regulations herein. Carrier reserves the option of weighing LCL cargo or full container loads ("FCL") loaded at the premises of Carrier or on behalf of Carrier by third parties, and to produce a corresponding VGM for charges as provided herein:
 - less-than-container load ("LCL") per \$50.00 per shipment/booking number.
 - full container loads ("FCL") \$50.00 per container.
10. Shipper shall be solely responsible for all charges and fees from ocean carriers and/or terminals resulting from any VGMs improperly provided by Shipper and/or third parties, or for any other reason whatsoever, including charges and fees relating to demurrage, detention, per diem, related to ocean carriers' and terminals' implementation of SOLAS and/or for weighing cargo within the terminal for cargo which did not have an appropriate VGM.

Assessorial attached with application of Optional.

A request for diversion of a shipment will be considered as an amendment to the contract of carriage and will be subject to the following definitions, conditions and charges:

A. Definition of Diversion:

A change in the original billed destination (which may also include a change in Consignee, order party, or both).

A change in Consignee, order party or both will not be considered as diversion of cargo.

B. Conditions:

1. Requests must be received in writing by the carrier prior to the arrival of the vessel at Discharge Port. Carrier will make diligent effort to execute the request but will not be responsible if such service is operationally impractical or cannot be provided.

2. Cargo moving under a non-negotiable Bill of Lading may be diverted at the request of shipper or consignee. Carrier reserves the right to require approval by both the shipper and consignee before agreeing to divert the cargo. Cargo moving under a negotiable Bill of Lading may be diverted by any party surrendering the properly endorsed original Bill of Lading. Cargo moving under a negotiable Bill of Lading may also be diverted by the shipper or consignee at the carrier's sole discretion without receipt by the carrier of the original negotiable Bill of Lading so long as a new negotiable Bill of Lading is not requested or issued by the carrier. If a new negotiable Bill of Lading is requested by the shipper or consignee, the original negotiable Bill of Lading must be surrendered to the carrier prior to issuance of the new negotiable Bill of Lading.

3. This rule will apply to full Bill of Lading quantities or full container loads only.

4. A shipment may only be diverted once. Shipper may request cancellation of the original diversion request, resulting in delivery of the cargo to the original billed destination, provided that such request is received prior to arrival of vessel at Discharge Port, and provided that all diversion charges as set out in C below, applicable to the original diversion request, are paid in full prior to the cancellation request being accepted by the carrier. In no instance will any refund of the diversion charges be made in the event of a cancellation. Any additional expenses incurred by the carrier whether related to the diversion or not will be for the account of the cargo.

5. Cargo, which, upon request of Merchant (stowage permitting), is diverted to a Port of Discharge within the Scope of this Tariff other than that shown in the Bill of Lading, shall at the sole discretion of the Carrier be assessed the rates and charges as agreed to in the pertinent Negotiated Rate Arrangement to the original destination if the Carrier determines that the changes requested do not involve additional expense or burden; or at the sole discretion of the Carrier, depending on the relevant administrative and other burdens resulting from the diversion. Carrier may consider the NRA upon which transport was initially based null and void and further transport shall be accomplished pursuant to a new NRA agreed to by the parties. If

the shipper and/or consignee do not agree to a new NRA, Carrier shall have no further obligations in relation to that transport and will discharge said cargo at the Port of Discharge to which the parties had agreed in the initial NRA. Shipper and/or the Consignee shall be responsible for all charges which relate to that cargo, and which may further accrue for the non-delivery of the cargo to the Port indicated in the underlying NRA. Carrier may exercise all remedies, including assertion of liens, and sale of the cargo to pay for outstanding freight and charges.

6. Diversion charges or administrative charge are payable by the party requesting the diversion. Carrier reserves the right to not implement the diversion until it is paid in full for charges invoiced pursuant to this Rule.

Single shipments which consist of articles subject to two or more different commodity rates, when articles subject to such different rates are separately packaged, will be charged at the actual or authorized estimated weight, and at the class or commodity rate applicable to each, subject to the minimum charge in the appropriate minimum charge item in tariffs making reference hereto.
3. Where different scales of rates are provided for shipments of different weights, apply on each article the rate which would apply on that article if such article were tendered as a straight shipment weighing the same as the aggregate weight of the mixed shipment. Any deficit between the actual weight of the shipment, and the weight provided for the next lower scale of rates, will be charged for at the lowest rate applicable to any article in the shipment.
4. When two or more commodities for which different ratings are provided, are shipped as a mixed shipment without actual weights being obtainable for the portions shipped under the separate ratings, charges for the entire shipment will be computed at the class or commodity rate applicable to the highest classed or rated commodity contained in such mixed shipment. The

minimum weight shall be the highest provided in any of the rates used in computing the charges. In the event a lower charge results by considering such commodities as if they were divided into two or more separate shipments, such lower charge shall apply.

A. SUBMISSION OF CARGO DECLARATION DATA; DEADLINE FOR SAME.

Pursuant to Customs regulations effective December 2, 2002, Carrier is required to submit certain cargo declaration data for all cargo on board a vessel that will call in the United States (i.e., U.S. import cargo and foreign destination cargo remaining on board the vessel) to the U.S. Customs Service not later than 24 hours prior to the time the cargo is loaded on Carrier's vessel at each non- U.S. port of loading. In order to enable Carrier to comply with this requirement, except as provided in paragraph B of this rule, any person tendering cargo to Carrier that is to be transported to the United States or that will be on a vessel when that vessel calls in the United

States must provide the following information regarding such cargo to Carrier in writing (including by electronic transmission) in sufficient time for Carrier to transmit the data to the Customs Service at least 24 hours prior to the loading of the cargo on Carrier's vessel. Failure to comply with these requirements will result in cargo not being loaded.

1. A precise description of the cargo (or the 6-digit HTS number under which cargo is classified) and weight of the cargo or, for a sealed container, the shipper's declared description and weight of the cargo. The quantity of cargo shall be expressed in the lowest external packaging unit (e.g., a container containing 10 pallets with 200 cases shall be described as 200 cases). Generic descriptions, including, but not limited to, 'FAK,' 'General Cargo, Cargo, N.O.S.,' 'Chemicals,' 'Foodstuffs,' and terms such as 'Said to Contain' are NOT acceptable descriptions.
2. Shipper's complete name and address, or the identification number issued to the shipper by the U.S. Customs Service upon implementation of the Automated Commercial Environment ('ACE').
3. Complete name and address of the consignee, owner or owner's representative, or its ACE identification number.
4. Internationally recognized hazardous material code when such materials are being shipped.
5. Seal numbers for all seals affixed to the container.

B. TIME FOR SUBMISSION OF DATA BY SHIPPERS TO CARRIER.

Except as otherwise provided below, the time for shipper to submit data to Carrier shall be as follows:

1. U.S.A. IMPORT SHIPMENTS

Per ISF 10+2 rule:

All 12 data elements must be submitted 48 hours prior vessel loading on foreign port (port of origin); changes on consolidator or stuffing location can be submitted up to 48 hours prior vessel arrival into US. U.S. Customs and Border Protection (CBP) has just recently announced that it will begin issuing liquidated damages (penalties of \$5,000 for each violation; up to \$10,000 per shipment) for non-compliant ISF filings.

LATE ISF: \$5,000 penalty if the ISF is not filed at least 48 hours prior to lading aboard a vessel destined to the USA. This includes untimely filing of an ISF update and/or flexible ISF filing.

INACCURATE ISF: \$5,000 per inaccurate and/or incomplete ISF filing. This includes missing and/or incorrect AMS bill of lading number representing the lowest level (e.g., HB/L).

AMENDMENTS: \$5,000 for inaccurate or late ISF updates including an incorrect update to a flexible ISF filing

2. U.S.A. EXPORT SHIPMENTS

Carrier will require complete and accurate shipping instructions by the DOC DUE BY (Document Due By) date mentioned on the NRA Booking / Rate Confirmation document. If not received by Doc due by (Document Due By) date, cargo will be rolled/postponed to the next available vessel and all costs associated with the postponement (rollover fee, handling, demurrage, etc.) will be billed to the Shippers/Owners Account.

U.S. Customs and Border Protection (CBP) may impose penalties for failure to comply with the U.S. Bureau of Census, Mandatory Automated Export System regulations. Exporters can review the AES regulations at <http://www.census.gov/foreign-trade/regulations/index.html> Any penalties imposed by CBP will be billed to the Shippers/Owners.

C. CERTAIN NON-VESSEL OPERATING COMMON CARRIERS.

Non-vessel operating common carriers ('NVOCCs') that are licensed by or registered with the FMC and that have obtained Customs bonds may submit the required inbound cargo declaration data directly to the U.S. Customs Service in accordance with Customs Service regulations and guidelines. For purposes of this provision, an NVOCC is registered with the FMC if it has been issued an Organization Number by the FMC, has published a valid and effective tariff, and has posted the required financial security with the FMC.

1. Certification. Any NVOCC that submits cargo declaration information directly to the Customs Service shall, unless notified by the Carrier pursuant to subparagraph C(1) above that it is not required to do so, in lieu of the information required to be submitted pursuant to paragraph A of this rule, provide the Carrier, not later than the deadline for shipper submission of cargo information under paragraph B of this rule, with a written certification stating that the required inbound cargo declaration data for its cargo has been transmitted to the U.S. Customs Service in a timely and accurate manner. Such certification shall describe the cargo tendered with sufficient specificity (including container number) that Carrier may readily identify such cargo.

2. NVOCC Co-Loading. For purposes of this paragraph, the term 'Master NVOCC' shall mean the NVOCC that is the customer of the Carrier and tenders co-loaded cargo to the Carrier in its name. In the event the Master NVOCC submits cargo declaration data for co-loaded cargo directly to the Customs Service, it shall do so for all NVOCCs with which it co-loads. In the event the Master NVOCC does not submit cargo declaration data for co-loaded cargo directly to the Customs Service but NVOCCs with which it co-loads transmit cargo declaration data for their cargoes directly to the Customs Service, it shall be the obligation of the Master NVOCC to provide Carrier with the certification described in subparagraph C (1) with respect to all co-loaded cargo tendered to Carrier by the Master NVOCC.

3. All NVOCCs shall be subject to Paragraphs D and E of this rule.

D. FAILURE TO PROVIDE INFORMATION; DENIAL OF PERMISSION TO LOAD CARGO.

1. In the event Carrier fails to provide the required inbound cargo declaration data to the U.S. Customs Service for all cargo to be loaded on its vessel within the time period required by Customs Service regulations it may, among other things, be assessed a civil penalty, denied permission to unload the cargo for which information was not timely provided, and/or denied permission to unload any cargo from the vessel on which the cargo is moving. Accordingly, Carrier may refuse to load any cargo tendered to it for which it has not received either (i) the data required by paragraph A of this rule by the deadline specified pursuant to paragraph B; or (ii) the certification required by paragraph C of this rule by the deadline specified therein.

2. Any and all costs incurred by Carrier with respect to cargo in its possession which is not loaded due to the non-provision of information or certification, or which is not loaded pursuant to the instructions of the U.S. Customs Service (regardless of whether or not the required data or certification has been provided for such cargo), including but not limited to inspection, storage and/or re-delivery costs, shall be for the account of the cargo. Carrier shall have a lien on cargo in its possession for amounts due hereunder and may hold cargo until such amounts (and any other unpaid freights or charges) are paid or sell such cargo after a reasonable period. In the event Carrier is forced to take legal action to collect amounts due hereunder, Carrier shall be entitled to recover all costs (including reasonable attorneys' fees and expenses) incurred in connection with such legal action.

E. INDEMNIFICATION OF CARRIER.

If Carrier is assessed a civil penalty or fine or is denied permission to unload cargo, because of the failure of any and all shippers, consignees, cargo owners, NVOCCs, shippers' associations and their agent(s) to provide the information required by this rule and/or by the regulations or guidelines of the U.S. Customs Service in a complete and accurate manner, then such shippers, consignees, cargo owners, NVOCCs, shippers' associations and their agent(s) shall be jointly and severally liable to indemnify and reimburse Carrier for any such penalty or fine and any and all costs, damages or liability, direct, indirect, special or consequential, incurred by the Carrier as a result of the denial of permission to unload cargo or any delays related thereto. A \$500 USD processing fee will also apply. Carrier shall have a lien on cargo in its possession for amounts due hereunder and may hold cargo until such amounts (and any other unpaid freights or charges) are paid or sell such cargo after a reasonable period. In the event Carrier is forced to take legal action to collect amounts due hereunder, Carrier shall be entitled to recover all costs (including attorneys' fees) incurred in connection with such legal action.

F. CONFIDENTIALITY.

Carrier acknowledges that the information required by the Customs Service may constitute confidential information that is not generally available to the public. Carrier, in accordance with the requirements of Section 10(b)(13) of the Shipping Act of 1984, as amended, will keep

confidential, to the extent permitted by law, all Shipper bill of lading information, including information related to underlying shippers and commodities in respect of containers of less than container-load cargo containing shipments by more than one Shipper.

Rule: BULK AGRICULTURE PRODUCTS

Rule #: 2-180

Filed on: 04/18/2011

Effective: 04/18/2011

Thru:

Expire:

1. The following conditions apply to international intermodal shipments of Bulk Agriculture Products shipped in containers on or via underlying ocean carriers and the Burlington Northern and Santa Fe Railway Company (BNSF) and the Union Pacific Railroad Co. (UP), as underlying carriers. No transportation of Bulk Agriculture Products by Carrier in containers will be arranged with underlying ocean carriers or transported by BNSF/UP unless Shipper adheres to all conditions of this rule. Carrier must accept the terms and conditions of the BNSF Intermodal Rules and Policies Guide in effect at the time a shipment of Bulk Agriculture Products, and therefore, Shippers must also accept those terms as a precondition to booking cargo with Carrier when Carrier intends usage of the underlying ocean and rail service from underlying ocean carriers and BNSF/UP, respectively. Shipper acknowledges that it has reviewed the BNSF Intermodal Rules and Policies Guide, available for viewing and printing at:

http://www.bnsf.com/markets/intermodal/intermodal_rules_and_policies_guide.html

2. Loading of Bulk Agriculture Products is acceptable only when loaded in underlying ocean carrier s ISO container equipment conforming to or exceeding AAR M-930 specification. Containers must be suitable to carry concentrated weight, have no visible defects, and be capable of restraining outward pressure on the container that could lead to equipment failure during dynamic handling in the rail environment.

3. Bulk Agriculture Products must be designated by commodity description, Bulk Agriculture, and proper Standard Transportation Commodity Code (STCC) on the bill of lading. Shipper must not use a FAK STCC commodity or commodity description.

4. Shipper agrees to load the shipment in compliance with BNSF container loading specifications that include even floor weight distribution and adequate blocking and bracing. Shipper agrees to weigh and certify each load before tendering to Carrier. Gross weight cannot exceed federal highway regulations nor may cargo weight exceed manufacturers specification for the equipment. It is shippers responsibility to determine any weight limitations imposed by underlying ocean carriers and to adhere to these.

5. Shipper also agrees to provide a securely affixed bulkhead at the rear of the container to ensure undue pressures are not exerted against the rear doors, which could lead to failure of the doors or discharge of product when opened. Bulkhead material and construction are subject to BNSF Load and Ride Solutions approval. Shipper also agrees to perform a post loading container/chassis inspection, which includes a thorough inspection of the undercarriage, flooring and all supporting components and to correct defects or reject equipment which would cause leakage or loss of product from the equipment. Shipper must reject and not tender to Carrier for transport any defective or inadequate equipment or any equipment containing a deformation of any cross-member. Shipper also agrees to use high security barrier seals that will be affixed to the container rear doors.

6. Carrier or the underlying ocean carrier, or BNSF/UP may remove from transportation and place in storage pending further disposition any shipment of Bulk Agriculture Products which Carrier, underlying ocean carrier or BNSF discovers does not comply with the conditions set forth herein or with the BNSF/UP Intermodal Rules and Policies Guide. A Shipper tendering a non-complying shipment will be assessed charges and liquidated damages to cover costs associated with additional handling and any disruption in service. Storage charges will be assessed in addition to the above surcharges.

7. Acceptance for transportation by Carrier, underlying ocean carrier or BNSF/UP of a container of Bulk Agriculture Products which is not in compliance with this rule or the BNSF Intermodal Rules and Policies Guide will not serve to release the Shipper from its obligations.

8. Carrier highly recommends the use of fully encapsulated bags to protect the product and equipment during transport; however this is left to the Shipper s discretion. Shipper will also indemnify and hold Carrier harmless for product deterioration, equipment contamination, leakage, or product loss.

9. For the purpose of determining Shipper s liability and obligation to defend and indemnify Carrier under this rules, and BNSF/UP pursuant to the Shipper General Liability item in the BNSF Intermodal Rules and Policies Guide, the Shipper agrees that its failure to comply with the conditions set forth above shall constitute a failure to comply with equipment specifications and standards, or a failure to load, brace, and distribute the weight of the lading properly, as the case may be.

10. The party tendering Bulk Agriculture Products to Carrier to be tendered to underlying ocean carrier or BNSF/UP agrees to indemnify, defend, and hold harmless Carrier, underlying ocean carrier and BNSF/UP from any and all claims, liabilities, fines, penalties, costs, losses, liens, causes of action, suits, demands, judgments, expenses, and damages(including, without

limitation, court costs and attorneys fees) resulting, in whole or in part, from: a) the improper blocking or bracing or loading of Bulk Agriculture Products; or b) the use of a container that is for any reason unsuitable for the movement of Bulk Agriculture Products. In the event that Shipper has not met the terms of this rule, Shipper agrees to release Carrier, underlying ocean carrier and BNSF/UP from any and all claims shipper could otherwise assert against underlying ocean carrier or BNSF/UP for loss or damage to Shippers shipments or their contents.

11. To the fullest extent permitted by law, all the foregoing obligations by Shipper to defend and indemnify the underlying ocean carriers, Carrier, and BNSF/UP shall apply regardless whether the underlying ocean carriers, Carrier, and BNSF/UP (including their agents and employees) are negligent, unless the liabilities to be indemnified are wholly due to the sole negligence of the underlying ocean carriers, Carrier, and BNSF/UP . The foregoing obligations by Shipper to defend and indemnify the underlying ocean carriers, Carrier, and BNSF/UP apply to liabilities for personal injury and death claims as well as to property damage claims.

"Merchant" includes any Person who at any time, in relation to the Goods, has been or becomes the shipper, consignor, consignee, exporter, importer, the holder of the Bill of Lading and/or the receiver or the owner of the Goods, any person entitled to possession of the Goods, any Person having a present or future interest in the Goods or any Person acting on behalf of any of the above-mentioned Persons.

"Package" is the largest individual unit of partially or completely covered or contained cargo made up by or for the Merchant which is delivered and entrusted to Carrier, including palletized units and each container packed and sealed by the Merchant or on its behalf, although the Merchant may have furnished a description of the contents of such sealed container(s) on this bill of lading.

"Place of Receipt", "Intended Port of Loading", "Intended Port of Discharge" and "Intended Place of Delivery", means respectively the place of receipt, port of loading (ocean vessel), port of discharge (ocean vessel) and place of delivery nominated on the front hereof.

The term "Goods" means the whole or any part of the cargo described on the fact of this Bill of Lading and, if the cargo is packed into container(s) supplied or furnished by or on behalf of the Merchant, include the container(s) as well.

2. CLAUSE PARAMOUNT:

This Bill of Lading, in so far as it pertains to sea carriage, shall have effect subject to the provisions of the Hague-Visby Rules, as amended, or any legislation compulsorily applicable to such carriage under the law in force at the port of loading or port of discharge, which gives effect to the provisions of the Carriage of Goods by Sea Act of 1936 (COGSA), and the Carriage of Goods by Water Act of Canada (COGWA). The Hague Rules (or COGSA or COGWA) shall also apply to carriage of goods by highways, roads and inland waterways and reference to carriage by sea in such rules or legislation shall be deemed to include reference to highways, roads and inland waterways. If anything herein contained by in consistent with the said Acts or Laws, it shall to the extent and on the occasion of such inconsistency and no further, be null and void. The Carrier shall be entitled to the full benefit of and right to all limitations of or exemptions from liability authorized by any provisions of Sections 4281 to 4287 of the Harter Act, as amended, and of any other provisions of the laws of the United States, and without prejudice to the generality of the foregoing, also any laws, statutes, or regulations available to the owner of the vessel(s) on which the Goods are carried. If and to the extent that the provisions of the Harter Act of 1893, as amended, would otherwise be compulsorily applicable to regulate the Carrier's responsibility for the goods during any period prior to loading on or after discharge

from the vessel, the Carrier's responsibility shall instead be determined by the provisions of section (3) below, but if such provisions are found to be invalid, such responsibility shall be subject to COGSA. It is agreed that such Acts and Laws shall also apply to deck cargo.

3. CARRIER'S RESPONSIBILITY:

A. PORT TO PORT SHIPMENT: Except as otherwise provided herein, the Carrier's responsibility for Goods shall commence at the time when such Goods are received by the Carrier at the Port of Loading and shall terminate when such Goods are delivered by or on behalf of the Carrier at the intended Port of Discharge. Notwithstanding the above where the Space(s) entitled "Place of Receipt" and/or "Place of Delivery" on the face hereof are completed, the contract contained in or evidenced by this Bill of Lading is for through transportation from and/or to the place(s) so named and the Carrier's responsibility shall then commence at the time when the Goods are delivered at the Place of Delivery so named (if any) and/or terminate when the Goods are delivered at the Place of Delivery so named (if any). The Merchant constitutes the Carrier as agent to enter into contracts on behalf of the Merchant with other for transport, storage, handling or any other services in respect of the Goods prior to loading and subsequent to discharge of the Goods from the vessel without responsibility for any act or omission whatsoever on the part of the Carrier or others and the Carrier may as such agent, enter into contracts with other on any terms whatsoever including terms less favorable than the terms in this Bill of Lading.

B. COMBINED TRANSPORT: Save as is otherwise provided in this Bill of Lading, the Carrier shall be liable for loss of or damage to the Goods occurring from the time that the Goods are taken into his charge until the time of delivery to the extent set out below.

1. Where the stage of Carriage where the loss or damage occurred cannot be proved:

(I) The Carrier shall be entitled to rely upon all exclusions of liability under the rules or legislation that would have applied under 5(A)(a) above had the loss or damage occurred at sea or, if there was no carriage by sea, under the Hague Rules (or COGSA).

(II) Where under (1) above, the Carrier is not liable in respect of some of the factors causing the loss or damage, he shall only be liable to the extent that those factors for which he is liable have contributed to the loss or damage.

(III) Where the Hague Rules (or any legislation applying such rules or Hague-Visby Rules such as COGSA) is not compulsorily applicable the Carrier's liability shall not exceed US \$2.00 per kilo of the gross weight of the Goods lost, damaged or in respect of which the claim arises or the value of such Goods, whichever is the lesser.

(IV) The value of the Goods shall be determined according to the commodity exchange price at the place and time of delivery to the Merchant or at the place and time when they should have been so delivered, or, if there is no such price, according to the current market price by reference to the normal value of the Goods of the same kind and quality, at such place and time.

2. Where the stage of Carriage where the loss or damage occurred can be proved:

(I) The liability of the Carrier shall be determined by the provisions contained in any international convention of national law of the country which provisions (II) cannot be departed from by private contract to the detriment of the Merchant (III) would have applied if the Merchant had made a separate and direct contract with the Carrier in respect of the particular stage of Carriage where the loss or damage occurred and had received as evidence thereof any particular document must be issued in order to make such international convention or national law applicable, and,

(IV) where neither (I) or (II) above shall apply any liability or the Carrier shall be determined by 5(C)(a)above.

C. DELAY, CONSEQUENTIAL LOSS: Save as otherwise provided herein, the Carrier shall in no circumstances be liable for direct, indirect or consequential loss or damage by delay or any other cause whatsoever and howsoever caused. Without prejudice to the foregoing, if the Carrier is found liable for delay, liability shall be limited to the freight applicable to the relevant stage of the transport.

D. PACKAGE OR SHIPPING UNIT LIMITATION: Where the Hague Rules or any legislation making such Rules compulsorily applicable (such as COGSA) to this Bill of Lading apply, the Carrier shall not, unless a declared value has been noted in accordance with (c) below, be or become liable for any loss or damage to or in connection with the Goods in an amount per package or shipping unit in excess of the package or shipping unit limitation as laid down by such Rules or legislation. Such limitation amount according to COGSA is US\$500. If no limitation amount is applicable under such Rules or legislation, the limitation shall be US\$500.

E. AD VALOREM DECLARED VALUE OF PACKAGES OR SHIPPING UNIT: The Carriers liability may be increased to higher value by a declaration in writing of the value of the Goods by the Merchant upon delivery to the Carrier of the Goods for shipment. Such higher value being inserted on the front of this Bill of Lading in the space provided for and, if required by the Carrier, extra freight paid in such case. If the actual value of the Goods shall exceed such declared value, the value shall nevertheless be deemed to be the declared value and the Carrier s liability, if any, shall not exceed the declared value and any partial loss or damage shall be adjusted pro rata on the basis of such declared value.

F. RUST, ETC: It is agreed that superficial rust, oxidation or any like condition due to moisture is not a condition of damage but is inherent to the nature of the Goods and acknowledgement of receipt of the Goods in apparent good order and condition is not a representation that such conditions of rust, oxidation or the like did not exist on receipt.

G. NOTICE OF LOSS OR DAMAGE: The Carrier shall be deemed prima facie to have delivered the Goods as described in this Bill of Lading unless notice of loss or damage to the Goods indicating the general nature of such loss or damage shall have been given in writing to the Carrier or to his representative at the place of delivery before or at the time of removal of the

Goods into the custody of the person entitled to delivery thereof under this Bill of Lading or, if the loss or damage is not apparent within three consecutive days thereafter.

4. REFRIGERATED CARGO: Goods of a perishable nature shall be carried in ordinary containers without special protection, services or other measures unless there is noted on the reverse side of this Bill of Lading that the goods will be carried in a refrigerated, heated, electrically ventilated or otherwise specially equipped container or are to receive special attention in any way. Carrier shall not be liable for any loss of or damage to Goods in a special hold or container arising from latent defects, derangement, breakdown, or stoppage of the refrigeration ventilation or heating machinery, insulation, ship's plant, or other such apparatus of the vessel or Container, provided that Carrier shall before or at the beginning of the Carriage exercise due diligence to maintain the special hold or Container in an efficient state. Merchant undertakes not to tender for transportation any goods which require temperature control without previously giving written notice of their nature and the required temperature setting of the thermostatic controls before receipt of the goods by Carrier. In the case of a temperature controlled Container stuffed by or on behalf of the Merchant, Merchant further undertakes that the Container has been properly pre-cooled, that the Goods have been properly stuffed in the Container, and that its thermostatic controls have been properly set by the Merchant before receipt of the Goods by the Carrier. Merchant's attention is drawn to the fact that refrigerated containers are not designed to freeze down cargo which has not been presented for packing at or below its designated carrying temperature. Carrier shall not be responsible for the consequences of cargo tendered at a higher temperature than that required for the transportation. If the above requirements are not complied with, Carrier shall not be liable for any loss of or damage to the goods whatsoever. .

5. CARGO STOWED IN CONTAINERS BY MERCHANTS: The Carrier shall not be responsible for the safe and proper stowing of cargo in containers if such containers are loaded with cargo by Merchant, consolidator or inland carrier, and no responsibility shall attach to the Carrier for any loss or damage caused to contents by shifting, overloading or improper packing of the container. Containers loaded by the Merchant or their agent shall be properly sealed and the seal identification reference, as well as the container reference, shall be shown herein. The merchant, consolidator or inland carrier shall inspect containers before loading them and loading of the containers shall be prima facie evidence that the containers were sound and suitable for use. Carrier has the right but not the obligation to open and inspect the containers at any time without notice to Merchant, and expenses resulting from such inspections shall be borne by Merchant. Merchant warrants that the stowage and seals of the containers are safe and proper and suitable for handling and carriage and indemnifies Carrier for any injury, loss or damage caused by breach of this warranty. The Carrier will not be liable in any event for the particulars furnished by the Merchant as shown on the face of this Bill of Lading. This Bill of Lading is a receipt only for the number of containers, packages or pieces as shown on the face of this Bill of Lading. The Carrier has counted only the number of containers (If container received already loaded) or the number of packages or pieces (if the Carrier has loaded the container) and under no circumstances shall the Bill of Lading be prima facie evidence of the marks, quantity, weight, description, measurement and other particulars furnished by the Merchant. Delivery shall be deemed as full and complete performance when the containers are delivered by Carrier with the seals intact. The Merchant shall defend, indemnify and hold harmless the Carrier against any

loss, damage, claim, liability, or expense what so ever arising from one or more of the following matters: loss or damage caused by the manner in which the Container has been stuffed; loss or damage caused by the unsuitability of the Goods for Carriage in Containers; loss or damage caused by the unsuitability or defective conditions of the Container, provided that where the Container has been supplied by or on behalf of the Carrier, this paragraph shall only apply if the unsuitability or defective condition would have been apparent upon reasonable inspection by the Merchant at or prior to the time when the Container was stuffed; and loss or damage if the Container is not sealed at the commencement of the Carriage except where the Carrier has agreed to seal the Container.

6. OPTIONS OF THE CARRIER:

a) Subcontracting: The Carrier shall be entitled to subcontract on any terms the whole or any part of the handling, storage or carriage of the Goods and any and all duties whatsoever undertaken by the Carrier in relation to the Goods. The Merchant shall defend, indemnify and hold harmless the Carrier against any claims which may be made upon the Carrier by any servant, agent or subcontractor of the Carrier in relation to the claim against any such person made by the Merchant. The provisions of COGSA shall apply by agreement of the parties to all agents, contractors, and subcontractors, including but not limited to, draymen, truckers, and stevedores, prior to the loading of and after the unloading of the cargo. Without prejudice to the foregoing, every such servant, agent and subcontractor shall be entitled to the same rights, exceptions, exemptions, defenses, immunities, limitations of liability, privileges and conditions granted or provided by this Bill of Lading, tariff or statute, including but not limited to the provisions of COGSA, to which Carrier is entitled and for the benefit of the Carrier as if such provisions were expressly for their benefit, and in entering into this contract the Carrier, to the extent of these provisions, does so not only on his Own behalf but also as agent and trustee for such servants, agents and subcontractors. The above shall also apply to and for the benefit of the officers and employees of the Carrier and the agents, officers and crew of the vessel and to and for the benefit of all parties performing services in connection with the Goods as agents or contractors of the Carrier (including, without limitation, stevedores, terminal operators, and agents) and the employees of each of them. By entering into this contract, the Carrier, to the extent of these provisions, does so not only on his own behalf, but also as agent or trustee for such Persons and vessels, and such Persons and vessels shall to this extent be deemed parties to this contract.

b) Route and Tran-shipment: The Carrier may at anytime and without notice to the Merchant, use any means of transport or storage in any reasonable manner and by any reasonable means, methods and routes, including but not limited to, inland carriage by truck, rail and/or air; load or carry the Goods on any vessel, whether named on the front hereof or not; transfer the Goods from one conveyance to another, including transshipping or carrying the same on another vessel than that named on the front hereof or by any other means of transport whatsoever; at any place unpack and remove Goods which have been stuffed in or on a Container and forward the same in any manner whatsoever; proceed at any speed and by any route in Carrier s discretion (whether or not the nearest, direct, customary, advertised, or published route) and proceed to or stay at any place whatsoever once or more often and in any order; load or unload the Goods from any conveyance at any place (whether or not the place is a port named on the front hereof as the

intended Port of Loading or intended Port of Discharge); comply with any orders or recommendations given by any government, authority, or any Person or body acting or purporting to act as or on behalf of such government or authority, or having under the terms of the insurance on the conveyance employed by the Carrier, the right to give orders or directions; permit the vessel to proceed with or without pilots, save or attempt to save life or property, adjust navigational instruments, make trial trips, go to repair yards, shift berths, take in fuel or stores, embark or disembark any persons to tow or be towed, or to be dry-docked; permit the vessel to carry livestock, Goods of all kinds, dangerous or otherwise, contraband, explosives, munitions or warlike stores, and sail armed or unarmed. These liberties may be invoked by the Carrier (without notice to the Merchant), either with or without the goods on board, for any purposes whatsoever, whether or not connected with the Carriage of the Goods. Any act involving delays resulting from such activities shall not be deemed a deviation of whatsoever nature or degree.

c) Hindrance affecting Performance:

1. Carrier shall use reasonable endeavors to complete transport and to deliver the goods at the place designated for delivery. If at any time the performance of this contract as evidenced by this Bill of Lading in the opinion of Carrier is or will be affected by any hindrance, risk, delay, injury, difficulty or disadvantage of any kind including strike and if by virtue of the above it has rendered or is likely to render it in any way unsafe, impracticable, unlawful, or against the interest of Carrier to complete the performance of the contract, Carrier, whether or not the transport is commenced, may without notice to Merchant elect to:

i. treat the performance of this contract as terminated, abandon the Carriage of the Goods and place the goods, or any part of them, at Merchant's disposal at any place which the Carrier shall deem safe and convenient, whereupon the responsibility of the Carrier in respect of such Goods shall cease; or

ii. continue the Carriage and deliver the goods at the place of delivery. In any event, Carrier shall be entitled to full freight for any goods received for transportation and additional compensation for extra costs resulting from the circumstances referred to above.

2. If, after storage, discharge, or any actions taken above, Carrier makes arrangements to store and/or forward the goods, it is agreed that he shall do so only as agent for and at the sole risk and expense of Merchant without any liability whatsoever in respect of such agency. Merchant shall reimburse Carrier forthwith upon demand for all extra freight charges and expenses incurred for any actions taken according to sub-part 6(c), including delay or expense to the Ship, and Carrier shall have a lien upon the goods to that extent.

3. The situations referred to in sub-part 6(c) above shall include, but shall not be limited to, those caused by the existence or apprehension of war declared or undeclared, hostilities, riots, civil commotions, or other disturbances, closure of, obstacle in, or danger to any port or canal, blockade, prohibition, or restriction on commerce or trading quarantine, sanitary, or other similar regulations or restrictions, strikes, lockouts or other labor troubles whether partial or general and whether or not involving employees of Carrier or its Subcontractors, congestion of port, wharf, sea terminal, or similar place, shortage, absence or obstacles of labor or facilities for loading,

discharge, delivery, or other handling of the goods, epidemics or diseases, bad weather, shallow water, ice, landslip, or other obstacles in navigation or carriage.

4. Carrier, in addition to all other liberties provided for in this Article, shall have liberty to comply with orders, directions, regulations or suggestions as to navigation or the carriage or handling of the goods or the ship howsoever given, by any actual or purported government or public authority, or by any committee or person having under the terms of any insurance on the Ship, the right to give such order, direction, regulation, or suggestion. If by reason of and/or in compliance with any such order, direction, regulation, or suggestion, anything is done or is not done the same shall be deemed to be included within the contractual carriage and shall not be a deviation.

In the case of inconsistency between this Bill of Lading and the applicable tariff or the terms and conditions of service, this Bill of Lading shall prevail.

17. SEVERABILITY: If any provision in this Bill of Lading is held to be invalid or unenforceable by any court or regulatory or self regulatory agency or body, such invalidity or unenforceability shall attach only to such provision. The validity of the remaining provisions shall not be affected thereby, and this Bill of Lading contract shall be carried out as is such invalid or unenforceable provisions were not contained herein.

18. SURRENDER AND NEGOTIABILITY OF BILL OF LADING: This Bill of Lading shall be non-negotiable unless made out to order, in which event it shall be negotiable and shall constitute title to the Goods and the holder in due course shall be entitled to receive or to transfer the Goods herein described. If required by the Carrier, the Bill of Lading, duly endorsed, must be surrendered to the agent of the Carrier at the port of discharge, in exchange for a delivery order. This Bill of Lading shall be prima facie evidence of the Carrier's receipt of the Goods as herein described. However, proof to the contrary shall not be admissible when this Bill of Lading has been negotiated or transferred for valuable consideration to a third party acting in good faith.

Rule: JAPAN 24 HOURS ADVANCE MANIFEST RULES

Rule #: 35

Filed on: 03/10/2014

Effective: 03/10/2014

Thru:

Expire:

Japan Customs has announced a new 24 hour Advanced Manifest Regulation, to take effect in March 2014. The rules require all ocean carriers and Non Vessel Operating Common Carriers (NVOCCs) to submit a list of customs-defined data elements to Japan Customs at least 24 hours prior to vessel departure from the Port of Loading. As to transshipped cargo, the rules require the filers to file cargo information at least 24 hours before departure from a port of loading on a foreign vessel intended to enter into Japan.

The regulation is applicable to all cargo loaded on foreign vessels intending to enter a port in Japan. Empty containers, cargo on platform containers, and cargo not to be discharged in Japan are exempted. In principle, Japan Customs will notify the filers of their risk analysis results within 24 hours after the cargo information is filed. Therefore, when the filing is made 24 hours before loading of a cargo on a vessel, carriers and NVOCCs will receive an advance notice (load/no load) before loading of the cargo.

Failure to comply with this rule could result in cargo being held at the port of loading, or the denial of permission to unload vessel cargo and the possibility of returning the cargo to the load port, and the carriers and NVOCCs will be subject to imprisonment for up to one year or fines up to JPY500,000 (Approx. \$4,851.00). Fines, origin penalties, roll fees, and any port storage resulting from noncompliance of this rule will be at the shipper's expense.

Accordingly, GlobeRunners will implement a No Doc – No Load Policy for shipments to Japan or for transshipment from Japan. Complete shipping Instruction with all required Japan24 data must be received by GlobeRunners by the documentation cut-off date stated on your booking confirmation. To comply with this regulation, we request our customers to provide complete and accurate shipping instructions before the cut-off date/time.

*No changes will be allowed to data submission after - the "Departure Time Registration (ATD)" is done, per Japan 24 Hours Advance Manifest Rules.

ACCURATE AND FINAL BL INSTRUCTIONS ARE MANDATORY BY THE DOCUMENT DUE DATE/TIME

For more details about the requirements and FAQs, please see the following information from Japan Customs: <http://www.customs.go.jp/english/summary/advance/index.htm>
